

WAMP

WAMP - the design fair

WAMP is a grassroots initiative founded in 2006. The core activity of the group is organisation of a monthly design fair where emerging Hungarian designers show their works in the centre of Budapest. Design meets urban Hungarians, tourists and expats. It is also a meeting place for creative young trend setters. WAMP opens up to the world once a year, and invites the greatest talents and design professionals from around the globe to showcase their work and talent in Budapest.

The main objective of WAMP has always been to support Hungarian fashion and design as well as to enhance the visual culture of its audience. It also intends to promote dialogue between the public and designers, designers and companies and designers and designers also on an international level.
